

## Boston Properties Announces First Quarter 2015 Results

April 27, 2015

### Reports diluted FFO per share of \$1.30 Reports diluted EPS of \$1.11

BOSTON--(BUSINESS WIRE)--Apr. 27, 2015-- **Boston Properties, Inc. (NYSE: BXP)**, a real estate investment trust, reported results today for the first quarter ended March 31, 2015.

Funds from Operations (FFO) for the quarter ended March 31, 2015 were \$200.4 million, or \$1.31 per share basic and \$1.30 per share diluted. This compares to FFO for the quarter ended March 31, 2014 of \$183.8 million, or \$1.20 per share basic and \$1.20 per share diluted. The weighted average number of basic and diluted shares outstanding totaled approximately 153,230,000 and 153,873,000, respectively, for the quarter ended March 31, 2015 and 153,030,000 and 154,043,000, respectively, for the quarter ended March 31, 2014.

The Company's reported FFO of \$1.30 per share diluted was greater than the guidance previously provided of \$1.22-\$1.24 per share diluted primarily due to greater lease termination income of \$0.07 per share and portfolio operations of \$0.01 per share, offset by greater than projected interest expense of \$0.01 per share.

Net income available to common shareholders was \$171.2 million for the quarter ended March 31, 2015, compared to \$54.0 million for the quarter ended March 31, 2014. Net income available to common shareholders per share (EPS) for the quarter ended March 31, 2015 was \$1.12 basic and \$1.11 on a diluted basis. This compares to EPS for the quarter ended March 31, 2014 of \$0.35 basic and \$0.35 on a diluted basis. Net income available to common shareholders for the quarter ended March 31, 2015 includes gains on sales of real estate aggregating approximately \$95.1 million, or \$0.56 per share basic and \$0.55 per share on a diluted basis.

The reported results are unaudited and there can be no assurance that the results will not vary from the final unaudited information for the quarter ended March 31, 2015. In the opinion of management, all adjustments considered necessary for a fair presentation of these reported results have been made.

As of March 31, 2015, the Company's portfolio consisted of 168 properties, comprised primarily of Class A office space, one hotel, two residential properties and five retail properties, aggregating approximately 45.5 million square feet, including ten properties under construction totaling 3.3 million square feet. In addition, the Company has structured parking for vehicles containing approximately 14.7 million square feet. The overall percentage of leased space for the 155 properties in service (excluding the two residential properties and the hotel) as of March 31, 2015 was 90.3%.

Significant events during the first quarter included:

- On January 21, 2015, the Company's Compensation Committee approved the 2015 Multi-Year, Long-Term Incentive Program (the "2015 MYLTIP") as a performance-based component of the Company's overall compensation program. Under the Financial Accounting Standards Board's Accounting Standards Codification ("ASC") 718 "Compensation – Stock Compensation," the 2015 MYLTIP has an aggregate value of approximately \$15.7 million, which will generally be amortized into earnings over the four-year plan period under the graded vesting method and has been reflected in the 2015 guidance below.
- On February 19, 2015, the Company commenced a planned interest rate hedging program in contemplation of a financing with a target commencement date in September 2016 and maturity in September 2026. The Company has since entered into seven forward-starting interest rate swap contracts, including two contracts entered into subsequent to March 31, 2015, which fix the ten-year swap rate at a weighted-average rate of approximately 2.451% per annum on notional amounts aggregating \$300.0 million.
- On February 19, 2015, the Company completed the sale of a parcel of land within its Washingtonian North property located in Gaithersburg, Maryland for a gross sale price of \$8.7 million. Net cash proceeds totaled approximately \$8.3 million, resulting in a gain on sale of real estate totaling approximately \$3.7 million. The parcel contains approximately 8.5 acres of the approximately 27 acre property.
- On March 11, 2015, the Company received a second interim distribution from its unsecured creditor claim against Lehman Brothers, Inc. totaling approximately \$4.5 million, leaving a remaining claim of approximately \$33.0 million. There can be no assurance as to the timing or amount of additional proceeds, if any, that the Company may ultimately realize on the

claim.

- On March 17, 2015, the Company completed the sale of its Residences on The Avenue property located in Washington, DC for a gross sale price of \$196.0 million. Net cash proceeds totaled approximately \$192.5 million, resulting in a gain on sale of real estate totaling approximately \$91.4 million. The Company has agreed to provide net operating income support of up to \$6.0 million should the property's net operating income fail to achieve certain thresholds, which has been recorded as a reduction to the gain on sale. The Residences on The Avenue is comprised of 335 apartment units and approximately 50,000 net rentable square feet of retail space, subject to a ground lease that expires on February 1, 2068.

#### EPS and FFO per Share Guidance:

The Company's guidance for the second quarter and full year 2015 for EPS (diluted) and FFO per share (diluted) is set forth and reconciled below. Except as described below, the estimates reflect management's view of current and future market conditions, including assumptions with respect to rental rates, occupancy levels and the earnings impact of the events referenced in this release and otherwise referenced during the conference call referred to below. The estimates do not include possible future gains or losses or the impact on operating results from other possible future property acquisitions or dispositions, other possible capital markets activity or possible future impairment charges. EPS estimates may be subject to fluctuations as a result of several factors, including changes in the recognition of depreciation and amortization expense and any gains or losses associated with disposition activity. The Company is not able to assess at this time the potential impact of these factors on projected EPS. By definition, FFO does not include real estate-related depreciation and amortization, impairment losses or gains or losses associated with disposition activities. There can be no assurance that the Company's actual results will not differ materially from the estimates set forth below.

As shown below, the Company has updated its guidance for FFO per share (diluted) for full year 2015 to \$5.35 - \$5.45 per share from \$5.28 - \$5.43 per share. The updated guidance reflects, when compared to the Company's prior guidance, an increase from the first quarter 2015 results of \$0.07 per share, an increase in net operating income from the Company's property portfolio of \$0.02 per share, offset by a decrease in FFO of \$0.05 per share from lower capitalized interest.

(1) Pursuant to the revised definition of Funds from Operations adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"), we calculate Funds from Operations, or "FFO," by adjusting net income (loss) attributable to Boston Properties, Inc. (computed in accordance with GAAP, including non-recurring items) for gains (or losses) from sales of properties, impairment losses on depreciable real estate of consolidated real estate, impairment losses on investments in unconsolidated joint ventures driven by a measurable decrease in the fair value of depreciable real estate held by the unconsolidated joint ventures, real estate related depreciation and amortization, and after adjustment for unconsolidated partnerships and joint ventures. FFO is a non-GAAP financial measure. The use of FFO, combined with the required primary GAAP presentations, has been fundamentally beneficial in improving the understanding of operating results of REITs among the investing public and making comparisons of REIT operating results more meaningful. Management generally considers FFO to be a useful measure for reviewing our comparative operating and financial performance because, by excluding gains and losses related to sales of previously depreciated operating real estate assets, impairment losses and real estate asset depreciation and amortization (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO can help one compare the operating performance of a company's real estate between periods or as compared to different companies.

Our computation of FFO may not be comparable to FFO reported by other REITs or real estate companies that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently.

FFO should not be considered as an alternative to net income attributable to Boston Properties, Inc. (determined in accordance with GAAP) as an indication of our performance. FFO does not represent cash generated from operating activities determined in accordance with GAAP, and is not a measure of liquidity or an indicator of our ability to make cash distributions. We believe that to further understand our performance, FFO should be compared with our reported net income attributable to Boston Properties, Inc. and considered in addition to cash flows in accordance with GAAP, as presented in our consolidated financial statements.

(2) Real estate depreciation and amortization consists of depreciation and amortization from the Consolidated Statements of Operations of \$154,223 and \$154,270 and our share of unconsolidated joint venture real estate depreciation and amortization of \$(5,132) and \$4,584, less corporate-related depreciation and amortization of \$337 and \$340 for the three months ended March 31, 2015 and 2014, respectively.
